

LVS PROFLEET

# A GAME-CHANGING CONNECTED CAR SOLUTION

Driver guide

# LVS PROFLEET TAKES THE ADMIN OUT OF DRIVING FOR WORK

LVS ProFleet is an advanced journey-reporting tool that puts you in control of the information you share.

LVS ProFleet uses connected car technology to access key data about all of your journeys, allowing you to view this information through a dedicated mobile application.

## LVS PROFLEET

### Quicker mileage capture

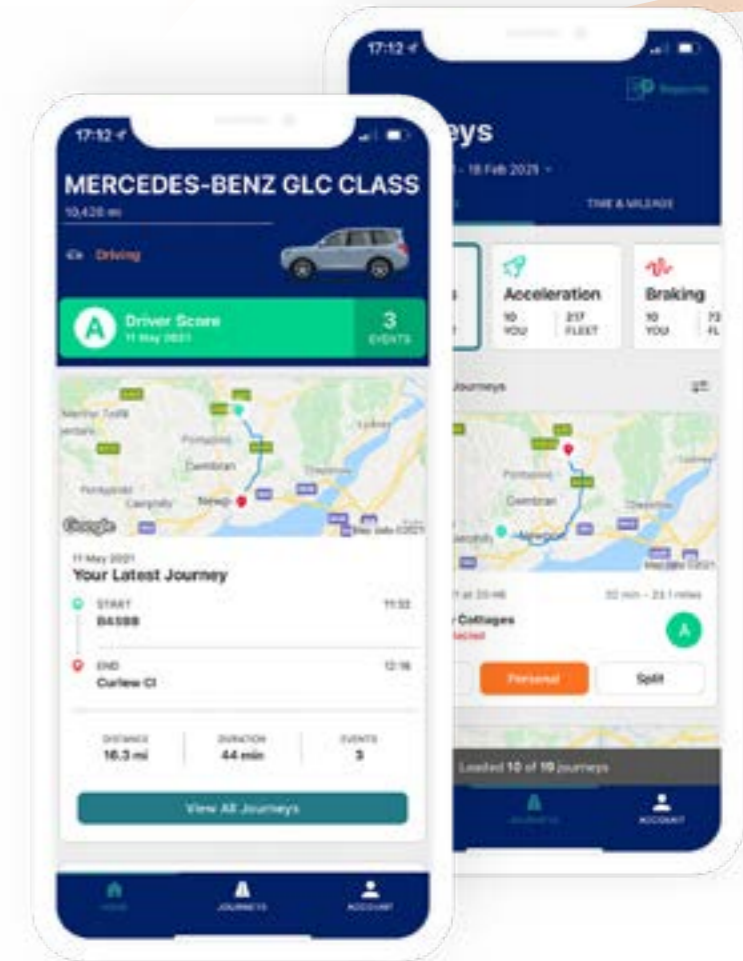

Business and private mileage is quick and simple to capture and report, meaning you will never miss making a claim.

### Permission controls

Take control of your personal data, through our unique driver permission options. You always choose how much you share.

### Dedicated mobile application

LVS ProFleet is designed as a dedicated mobile application on iOS and Android. It is easier than ever to access and review your journeys 24/7.

Download LVS ProFleet mobile app and sign in.

You'll discover a unique set of features to provide more insights about your driving style.

# HOW LVS PROFLEET WORKS

LVS ProFleet has been developed from over 10 years of our experience in telematics\*.

LVS ProFleet gathers information about your vehicle using telematics, giving you access to a range of features such as business mileage reporting and service reminders. You can even identify how fuel efficient your driving is so you can adapt your driving style.

Crucially, all your vehicle journey data remains confidential to you and is maintained securely online.

\*Cited data is relevant for Lombard Vehicle Solution in the United Kingdom

# DISCOVER HOW LVS PROFLEET CAN REDUCE YOUR ADMIN BURDEN.

## Regular service reminders

It's easy to miss scheduled manufacturer services when you're busy. Even when you know your next service is due, it's inconvenient to have any length of vehicle downtime.

But if you miss a service, it could be several weeks before another appointment is available. Missed or late services can make routine repairs more complex and could result in component failure.

It will also cost your employer, as it can invalidate the warranty and reduce the vehicle's resale value – costs that may be passed to you.

LVS ProFleet uses remote odometer readings and predefined settings to send you an automatic service reminder by phone or email, giving you plenty of time to book in your vehicle.

Using LVS ProFleet means:

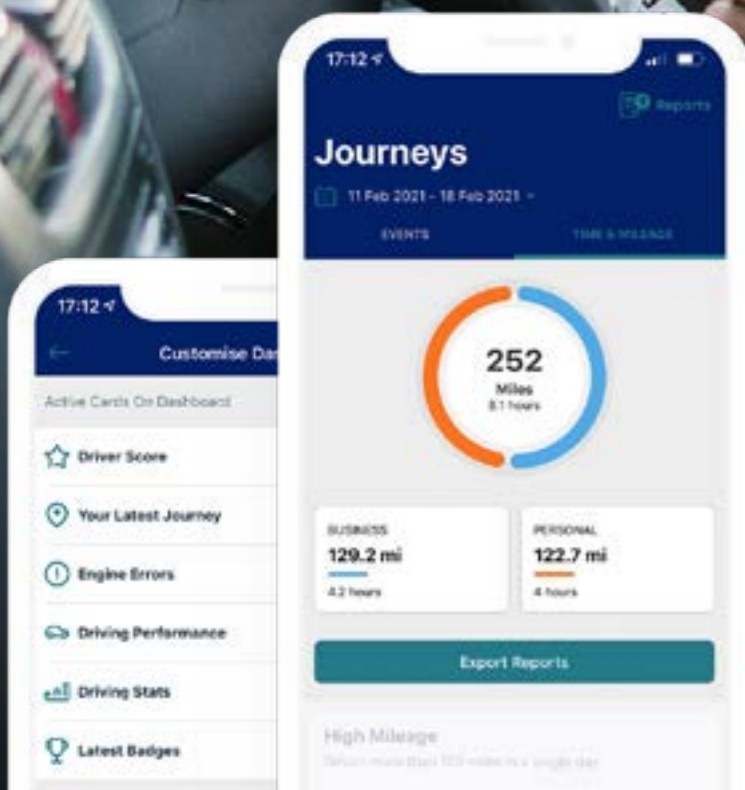

- No more missed or last-minute services
- You will have time to book a courtesy vehicle
- The ability to make suitable collection and delivery arrangements
- Reduced risk of recharges from your employer
- Your vehicle is kept in full working order — keeping you safe!

## Cut down on admin

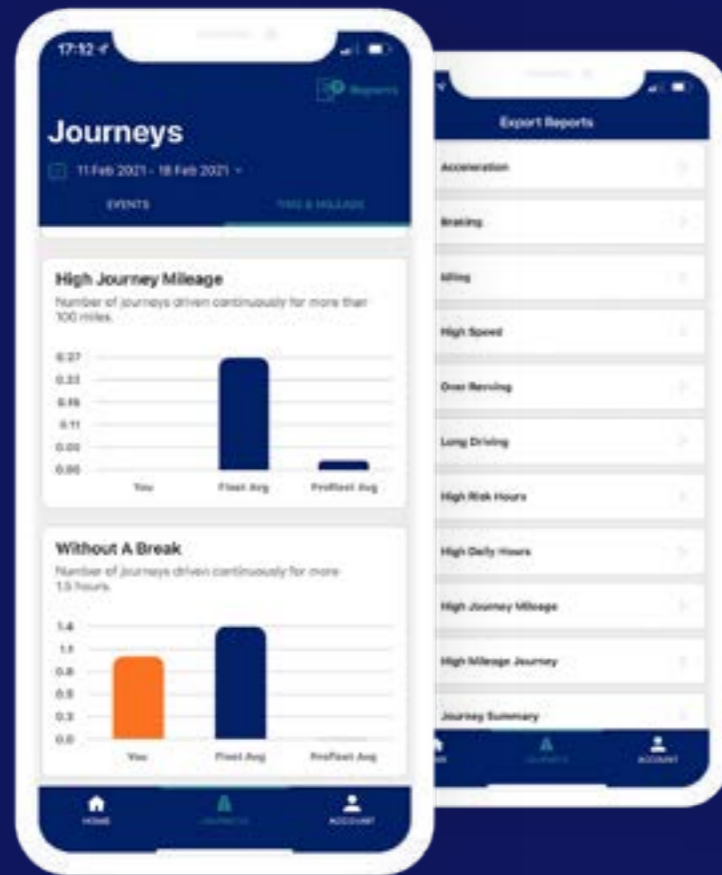

Maintaining an accurate log of all business journeys can be a tiresome process. LVS ProFleet saves you time, effort and uncertainty by automatically recording all journey data. You can easily separate business and private mileage at the click of a button.

Everything you need to meet HMRC guidelines for expenses claims and submissions is recorded accurately, simplifying the whole process:

- Digital journey records for expenses
- Separate business and private mileage
- Accurate and reliable
- Meets HMRC guidelines

We hope you enjoy the benefits of LVS ProFleet. If you have any questions, please get in touch with your Fleet Manager.

### Stolen vehicle recovery

If your vehicle is stolen, LVS ProFleet's GPS location facility can be a crucial factor in helping the police recover it promptly.

Simply ask your Fleet Manager to approve and activate this feature early on so it's ready, just in case you ever need it.

### Driver score and coaching tips

LVS ProFleet can also highlight aspects of your driving behaviour that affect fuel consumption – such as hard acceleration and braking. You'll get a score for every journey, and professional coaching tips in the driver app will help you to see how a smoother driving style could reduce fuel costs and carbon emissions.

### Your fuel expenses

LVS ProFleet simplifies fuel expense claims. Depending on the particular service your employer has chosen, the fuel expense management system allows you to submit a summary of business and private miles for quick approval:

- No more time-consuming paper logs.
- Accurately claim fuel expenses.

### Improve driving habits

Your employer has a duty to minimise driving risks while you make sure you're fit to drive and your vehicle stays roadworthy.

LVS ProFleet can help you manage this by highlighting journeys that might cause you driving fatigue. A range of reports allow you to identify risks, so you can change your driving habits and reduce the chance of an accident.

Benefit from insights such as:

- Hours behind the wheel
- High risk driving hours
- Journeys without a break
- High daily mileage

### We keep your data safe

We take your data privacy very seriously. All vehicle and journey data is held securely on our private cloud and protected with your unique login. You can choose how much access you want to give your Fleet Manager, with the ability to share data from all journeys or limit it to business journeys only.

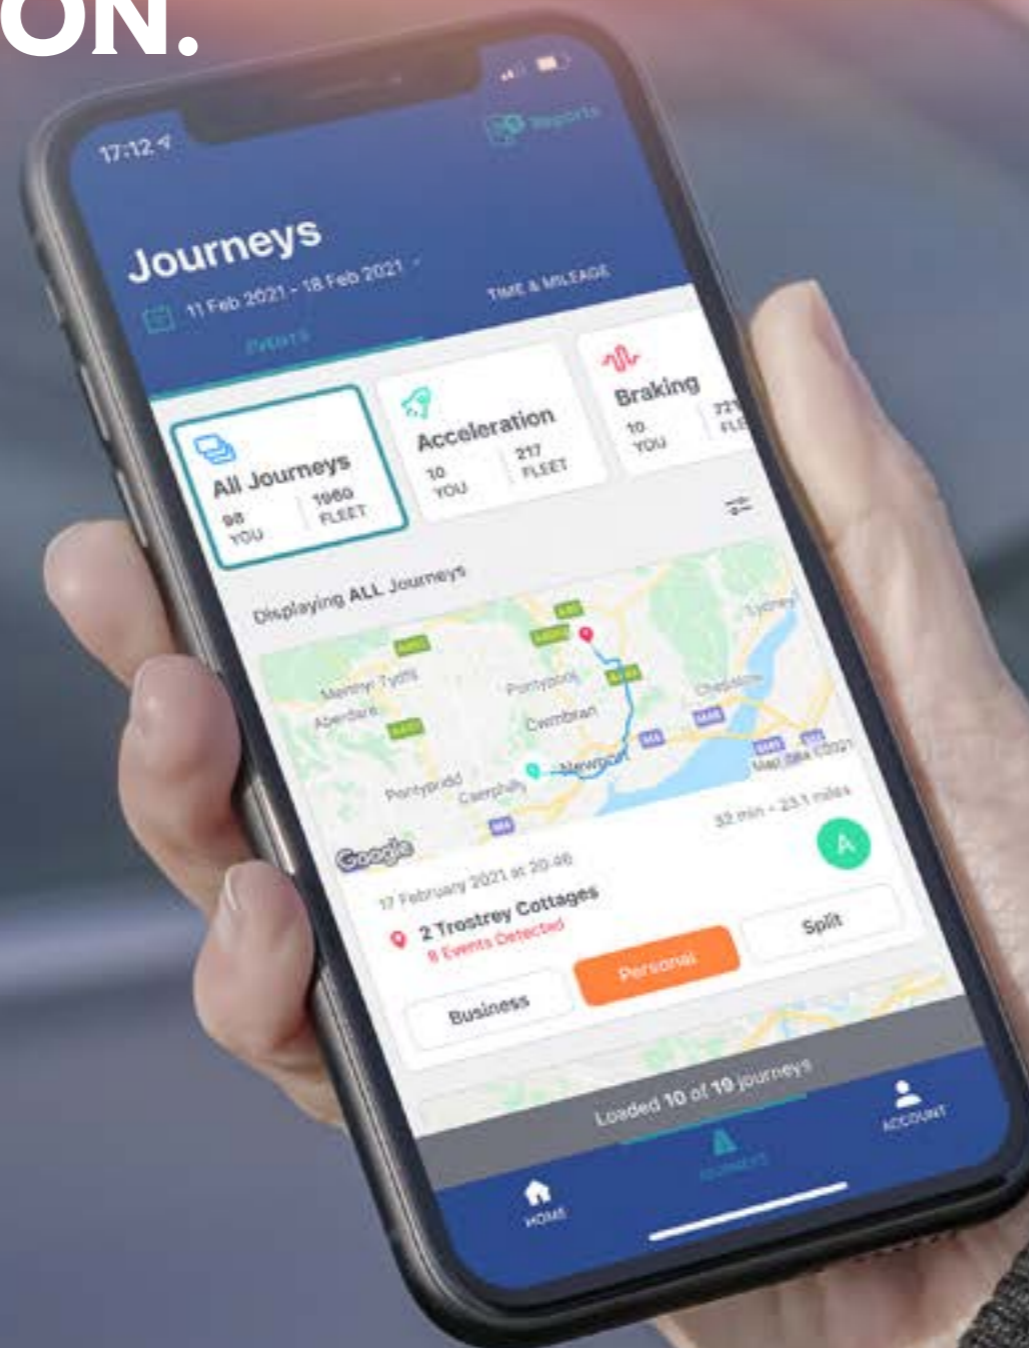

LVS ProFleet's data meets GDPR requirements, guaranteeing that your personal information is only ever used for the purposes set out in your LVS ProFleet agreement, and is never passed on to any third parties without prior permission.

# IT'S JUST THE BEGINNING OF THE CONNECTED CAR REVOLUTION.

Every day, more and more vehicles adopt connected car technology worldwide. Driver expectations grow along with the expansion of fleet connectivity.

Our move to a state-of-the-art secure cloud platform will help us to swiftly develop new services to continually improve your in-car experience.

## ON-DEMAND REPORTS

There's a wealth of personal reports available to you at any time to identify areas for improving your driving habits and safety:

- ✓ **Journey summary**  
Records all journeys from the date you register.
- ✓ **Driving without a break**  
Shows the number of journeys where you have driven continuously for longer than the user-specified 'time without a break'.
- ✓ **High mileage**  
Shows when your average daily mileage was over the value specified for a period of time.
- ✓ **High-risk journeys**  
Report on journeys where you travelled between specific times e.g. late at night or early in the morning.

You should seek independent advice to determine if this product is suitable for you. Security, in the form of guarantees or indemnities, may be required. Product fees may apply. Finance subject to status and is only available for business purposes. Lombard Vehicle Solutions (LVS) is provided by ALD Automotive Ltd (ALD), trading as Lombard Vehicle Solutions, Oakwood Drive, Emersons Green, Bristol, BS16 7LB. LVS is a product solution provided for Lombard by ALD and there is a financial connection between Lombard and ALD as a result. The arrangement ensures that Lombard customers as well as those of National Westminster Bank Plc and The Royal Bank of Scotland plc have access to a wider range of products to meet their vehicle asset finance needs. Customers whose agreements are regulated by the Financial Conduct Authority should be aware that Lombard is acting as a credit broker and not a lender, and that Lombard will receive a payment from ALD should you wish to proceed with an agreement. You can ask Lombard or ALD for more information about this.

## **Driver assistance 0344 600 9013\***

**Operational 24 hours a day, Driver Assistance is the only number you'll need in case of an emergency. Availability of all support services is dependent upon the hours of operation by our specialist partners and your agreement type.**

\* Landline and mobile phone calls to numbers beginning 03, cost the same as a call to a standard "01" or "02" landline number. These calls will be included in any inclusive or free minutes you may have.
